Medistri Expands to Hungary: Strengthening Our Commitment to Healthcare

Medistri is proud to announce the opening of our new facility in Székesfehérvár, Hungary, marking a significant milestone in our mission to enhance global healthcare solutions.

Strategically Located for Excellence

Conveniently situated just 60 minutes from Budapest, the new site is meticulously designed to meet the evolving needs of our clients. Operating under Switzerland's stringent Quality Management System (QMS), it reflects our unwavering commitment to delivering high-quality solutions for the medical and pharmaceutical industries.

Comprehensive Services for the Healthcare Sector

Officially launching in January 2025, the Hungary facility is equipped to provide a range of essential services:

- Sterilization Services
- Sterilization Validation
- Laboratory Services

With a sterilization capacity of up to 15,000 pallets per year and chambers that can accommodate up to 16 Euro pallets, the facility is prepared to handle even the most demanding requirements.

Benefits for Our Customers

1 - Logistical Efficiency

The new facility's strategic location near Budapest simplifies supply chain management for our clients. By being closer to key European markets, transportation times and costs are significantly reduced, enabling faster delivery of sterilized products.

2- Administrative Support

Administrative documentation for shipping goods inside the European via Switzerland union can be complex. Our Hungary facility offers an opportunity to streamline these processes, ensuring that customers logistical requirements are met.

3- Back-Up and Business Continuity

In a dynamic and unpredictable landscape, having a reliable partner for business continuity is critical. Our Hungary site serves as a back-up facility for clients, providing redundancy to safeguard operations in case of disruptions. This ensures that your products are processed and delivered on time, even in challenging circumstances.

A Collaborative Effort

The development of this facility, backed by a \$4 million investment, underscores the importance of collaboration in driving healthcare innovation. We are grateful for the partnerships with our Swiss and Hungarian suppliers and customers, whose contributions have been instrumental in bringing this project to life. This teamwork highlights our shared commitment to advancing pharmaceutical and medical device solutions.

Our skilled on-site team is ready to ensure smooth operations and provide the exceptional service our partners expect from Medistri.

Looking Ahead

As Medistri continues to expand its global footprint, we remain dedicated to pushing the boundaries of innovation and excellence in healthcare. Our Hungary facility is more than just a new location – it is a testament to our commitment to improving healthcare outcomes worldwide.
