### Enhancing Our Laboratory Services: Medistri's Expanded SAS Accreditation

March 10th 2025

We are pleased to announce that Medistri has expanded its scope of services under the Swiss Accreditation Service (SAS). Since its founding in 2006, Medistri has grown into a leading provider of contract sterilization and laboratory services for healthcare companies, becoming a trusted partner for businesses in the pharmaceutical, medical device, and biotechnology sectors.

#### A Full-Service Laboratory for Evolving Needs

With the recent expansion of our SAS accreditation, we are now able to offer additional accredited laboratory services, further strengthening our ability to deliver top-tier solutions aligned with the highest global standards. Our laboratory now provides the following services:

- Skin irritation according to OECD TG439
- Skin irritation for medical devices according to ISO 10993-23
- Quantitative analysis of 15 bisphenols
- Analysis of C10-C40 hydrocarbons
- Global migration, simulant E (TENAX)
- And more.

These services reinforce our commitment to delivering precise and reliable testing to ensure the safety and performance of healthcare products.

For a comprehensive list of our accredited services, kindly visit the Quality Certificates page on our website [here](#).

#### International Recognition and Industry-Leading Expertise

Medistri's laboratory has been accredited by SAS since 2008, operating under ISO 17025. Our testing is carried out in compliance with European and U.S. pharmacopeias, ensuring the utmost accuracy and reliability.

With this expanded certification, Medistri continues to support businesses in meeting complex regulatory requirements and ensuring products meet the highest global market standards.

For more information about our newly accredited laboratory services available to support your needs, visit our website [here](#) or contact us at [lab@medistri.com](mailto:lab@medistri.com).

— The Medistri Team

#Medistri

Since its foundation in 2006, Medistri has established itself as a trusted partner for healthcare companies worldwide. With state-of-the-art facilities, we continue to expand our integrated solutions in sterilization and laboratory testing—helping businesses drive innovation while ensuring the highest standards of safety and compliance.
